1

# Insert the Batteries

**1**  
Pull the  
remote  
battery  
cover off.

**2**  
Insert 4 AAA  
batteries making  
sure to match the  
plus (+) ends with  
the plus markings  
on the battery case.

**3**  
Replace  
the  
remote  
battery  
cover.

2

# Making the Remote Work With Your Receiver

**1**

Turn your receiver and  
TV on, and press SYSTEM  
INFO on the front  
of the receiver.

**2**

Confirm that you  
see the System  
Info screen.

**3**

Press RECORD on  
your remote. The remote  
address probably  
changes on the screen.

**4**

Use the remote to select  
Done from System Info to  
confirm that your remote  
operates your receiver.  
If this is not working,  
go back to step 1.

# Program the Remote to Control Your TV

**1**

Turn your TV on.

**2**

Press & hold the TV Mode button until all Mode buttons light up.

**3**

POWER

Press POWER.

**4**

Press the UP ARROW repeatedly (about 1 press per second) until your TV turns off.

**5**

Press POUND.

**6**

Press the POWER button to turn the TV on and try other buttons to make sure the code works. If you want to try another code, start over from step 1.

# Placing Your Remote in Limited Mode

Limited Mode locks out all the TV mode operations except for TV power, Mute, and Volume. This feature prevents you from accidentally tuning away from satellite programming.

**1**

**Press & hold the TV Mode button until all Mode buttons light up.**

**2**

**Press the PAGE UP button.**

**3**

**Press POUND.**

To take the remote out of Limited Mode, use the PAGE DOWN button instead of the PAGE UP button in step 2.

## If You Lose Your Picture (How to Use the Recover Button)

Use the Recover button to get back to watching satellite programming if you accidentally change channels or inputs on your TV.

**1**

**Press and hold RECOVER until all mode buttons light up.**

**2**

**If you see the System Info screen, proceed to step 4. Otherwise, continue to step 3.**

(Your screen may be different)

**3**

**Press RECOVER again & wait until the mode lights stop flashing. If you see the System Info screen, go to step 4. If not, repeat this step until you do.**

**4**

**Press SELECT to resume watching TV.**

# Remote Operation

## SAT Mode

To use the features described in this section, make sure you are in SAT mode by pressing the SAT Mode button.

**Note:** Some features may not be available depending on your receiver model.

### Volume & Mute Buttons

Control TV volume

Programming required (see page S-2)

### Receiver Power & TV Power

**Top button** turns the receiver on/off

**Bottom button** turns the TV on/off

Programming required (see page S-2)

Press this button for SAT Mode

### Page Buttons

Page up/down in menus

### Program Guide

Display current and future satellite program listings

### Arrows>Select Buttons

Channel up/down, navigate through menus/guides and select a desired option

### Browse

See what is on other channels while watching TV

### View Satellite Programming

Exit out of any menu/guide and go back to viewing live TV

### DISH

Explore interactive TV features

### Number Buttons

Enter a channel number or select menu items

### Search

Search for a program

### Receiver Menu

Access receiver features and settings

### Themes

Search for programs using Themes

### Recall

Go back to last channel viewed

### Info

Display program info

### Recover

Recovers satellite programming if your TV input or channel has changed

### Picture-In-Picture

#### (PIP) Buttons

Watch two separate programs at once (in Single Mode if available on your receiver)

### Format

Format the picture to the desired width to match the program you are viewing (this feature varies by receiver)

# Remote Operation

## TV Mode

To use the features described in this section, make sure you are in TV mode by pressing the TV Mode button. Remote programming is required.

See page S-2 for instructions.

**Note:** Remote operation is different on DISH Network TVs.  
See your DISH Network TV User's Guide for proper operation.

# Remote Operation

## VCR Mode

To use the features described in this section, make sure you are in VCR mode by pressing the VCR Mode button. You can use this mode to operate your DVD player instead of a VCR. Remote programming is required. See page 2 for instructions.

## VCR/DVD Power & TV Power

**Top button** turns  
VCR/DVD player  
on/off

**Bottom button**  
turns the TV on/off

**TV/Video**  
Switch VCR between its TV & VCR mode.

**Back**

**Stop**  
Stop playing  
or recording a  
videotape, or stop  
playing a DVD

## **Record**

Record on a videotape

**Press this  
button for  
VCR Mode**

**Up/Down Arrow  
Buttons**  
Channel up/down

**Pause**  
Pause a videotape or  
DVD

**FWD**  
Forward a videotape  
or DVD

**Play**  
Play a videotape or  
DVD

## **Number Buttons**

Enter a desired channel number on VCR

# **Notes:**

## REMOTE CONTROL OVERVIEW

Use this full-function remote to control your DISH Network receiver. Also, you can program the remote to control most of the popular brands of audio/video equipment like a TV, VCR, DVD player, or a second DISH Network satellite receiver. See *Programming for Other Equipment* on page 2.

**Note:** This remote control may have features not used by your receiver.

## USING THE GUIDE

This guide makes it easy to set up and use your remote control. By now you've noticed that the pages at the beginning of this *User Guide* contain information on quick set up and remote operation.

The rest of the guide contains in-depth information to help you get the most from your remote control, including controlling other equipment like TVs, VCRs, and DVD players.

## REMOTE CONTROL MODES

Use the remote control's mode buttons to set the remote to the correct mode for the equipment. Be sure to program the remote to control other equipment as described on page 2.

**Great Idea:** Whenever you finish using other equipment (TV, VCR, DVD, etc.) be sure to put the remote back in SAT mode.

To change the mode, press the button for the equipment you want to control. The mode button lights for two seconds to show you've set the remote to that mode.

If you program the remote to control other equipment, refer to the following pages located at the beginning of this guide for remote control operation instructions:

- TVs, *Remote Operation TV Mode*, page S-5.
- VCRs and DVD players, *Remote Operation VCR Mode*, page S-6.
- DISH Network satellite receivers, *Remote Operation SAT Mode*, page S-4.
- Stereo equipment use only these buttons: **SELECT** (change inputs), **MUTE**, **VOLUME**, and **POWER**.

## HOW THE REMOTE COMMUNICATES

This remote uses IR signals to control the receiver and other equipment.

IR signals travel only short distances (up to 40 feet), and cannot go through walls or other solid objects. Point the remote control right at the equipment you want to control, with no objects to block the signal path.

## PROGRAMMING FOR OTHER EQUIPMENT

Page S-2, *Program the Remote to Control Your TV*, shows you how to program the remote to control a TV. This section uses a different method to program the remote to control a TV or other equipment (such as a VCR, DVD player, tuner, amplifier, or a second TV). You can program the remote by either following the instructions in *Programming Using Equipment Code Tables* on page 4, or the *Scanning for Equipment Codes* procedure described on page 5.

## COMBINATION EQUIPMENT (FOR EXAMPLE, TV/VCR)

When programming the remote to control combination equipment, such as a TV/VCR or a TV/DVD, program the remote control in one mode, and then repeat the procedure in the other mode. Use the appropriate equipment codes provided later in this guide (see page 12). For example, to program the remote to control a Magnavox TV/VCR using code 887, follow the instructions to program the remote to control the TV using code 887, and then repeat the instructions for the VCR using code 797. Put the remote in TV mode to use the TV and VCR mode to use the VCR.

### **LIMITED MODE**

You can program your remote control in Limited Mode to keep from accidentally changing the channel on your TV or VCR. When Limited Mode is enabled, you cannot select TV mode. If you press the TV button while TV mode is programmed in Limited Mode, the TV button flashes and the SAT button lights, telling you cannot switch to TV mode. The remote then moves back to SAT mode.

When you use the remote to control your TV in Limited Mode, you are only be able to use the POWER, MUTE, and VOLUME buttons to control your TV. Also, when you use the remote to control your VCR in Limited Mode, you are only be able to use the POWER and VCR function buttons. The section *Programming Using the Equipment Code Tables* (page 4) has a step that tells the remote control to go into Limited Mode. Also, a quick way to put the remote in Limited Mode is on page S-3, *Placing Your Remote in Limited Mode*.

**Note:** Limited Mode cannot be used with audio amplifiers.

### **FIXED CHANNEL MODE**

You can program your remote control in Fixed Channel Mode to automatically set the TV and/or VCR to a given channel when you press either RECOVER or the SAT button.

#### **SETTING (OR CHANGING) FIXED CHANNEL MODE FOR TV AND/OR VCR**

- 1** Press and hold the TV or VCR mode button until all four mode lights illuminate.
- 2** Press the STAR key (\*). Enter a channel, using two or three digits between 02 and 125. For example, to set channel 25, enter \*25.
- 3** Press the POUND (#) key. The TV or VCR mode button flashes three times.

#### **REMOVING FIXED CHANNEL MODE FOR TV AND/OR VCR**

- 1** Press and hold the TV or VCR mode button until all four mode lights illuminate.
- 2** Press the STAR (\*) key followed by two zeros (\*00).
- 3** Press the POUND (#) key. The TV or VCR mode button flashes three times.

## **PROGRAMMING USING EQUIPMENT CODE TABLES**

You can set up the remote to control other equipment using the equipment codes listed on page 12 and the modes as shown on page 1.

Instructions	Additional Information
<b>1</b> Turn the equipment on.	Use the equipment's front panel buttons or its remote control.
<b>2</b> Find the brand name of the equipment in the tables starting on page 12.	If the brand isn't listed, see <i>Scanning for Equipment Codes</i> on page 5.
<b>3</b> Press and hold the mode button until all the other mode buttons light up, and then let go of the button. The mode button flashes.	For example, hold the TV mode button for a TV until all of the other mode buttons light. When you let go, TV flashes.
<b>4</b> <i>For AUX mode only.</i> Press 0 for a second TV, or 1 for a second VCR, or 2 for a tuner or amplifier.	This step is for programming the kind of equipment that should be programmed in AUX mode. If you're not programming in AUX mode, skip to step 5.
<b>5</b> Enter one of the three-digit equipment codes from the table using the number buttons.	The three-digit equipment code should be for the brand name of your equipment that you found in step 2.
<b>6</b> If you want to program Limited Mode, press 1. If not, skip to step 7.	See <i>Limited Mode</i> on page 3 for more information.
<b>7</b> Press POUND (#).	If you entered the code correctly, the mode button flashes three times.
<b>8</b> Press POWER to turn off the equipment. If the equipment does not turn off, go to step 10.	If the code works, the equipment turns off.

Instructions	Additional Information
<p><b>9</b> Turn the equipment back on and try some other buttons to make sure they work. If the code works for other buttons, stop here.</p> <p><b>Note:</b> If you have programmed your remote in Limited Mode, only the MUTE and VOLUME buttons work.</p>	For example, sometimes POWER works when other buttons don't.
<p><b>10</b> If the code doesn't work, repeat steps 3 through 9 with another equipment code from the tables.</p>	Try every code listed for your brand until one works for your equipment.
<p><b>11</b> If you can't find a code that works, try <i>Scanning for Equipment Codes</i> that follows.</p>	

## **SCANNING FOR EQUIPMENT CODES**

Instructions	Additional Information
<p><b>1</b> Turn the equipment on.</p>	Use the equipment's front panel buttons or its remote control.
<p><b>2</b> Press and hold the mode button until all the other mode buttons light up, and then let go of the button. The mode button flashes.</p>	For example, hold TV for a TV until all of the other mode buttons light. When you let go, TV flashes.
<p><b>3</b> <i>For AUX mode only.</i> Press 0 for a second TV, or 1 for a second VCR, or 2 for a tuner, or amplifier. Then press the STAR (*) button.</p>	This step is for programming which kind of equipment that should be programmed in AUX mode. If you're not programming in AUX mode, skip to step 4.

Instructions	Additional Information
<b>4</b> Press POWER.	This puts your remote in the scan mode.
<b>5</b> Press the UP or DOWN ARROW repeatedly until the equipment turns off.	As you press the UP or DOWN ARROW, the remote tries each code in the memory to see if it can turn off your equipment. When the equipment turns off, you have found a code that might work. <b>Note:</b> The mode button for the equipment flashes rapidly eight times when you've scanned all the codes for that equipment.
<b>6</b> Press POUND (#).	The mode button flashes three times if you have entered the code correctly. This stores the code you found.
<b>7</b> Turn the equipment back on and try some other buttons to make sure they work.	Press POWER to turn the equipment back on. Try some other buttons to make sure they work. Sometimes POWER works when other buttons don't.
<b>8</b> If necessary, repeat this procedure until you've tried all the codes.	You may need to repeat the scan to find the best code for your equipment.
<b>9</b> Once you find a code that works, consider using Limited Mode.	See page S-3, <i>Placing Your Remote in Limited Mode</i> for putting your remote in Limited Mode.

## **SWITCHING BETWEEN TV AND AMPLIFIER VOLUME CONTROL**

When you set up the remote to control a TV, the MUTE and VOLUME buttons control the TV volume, even if your remote control is in SAT mode. However, if you want to use the AUX mode to control a tuner or amplifier that has a volume setting, you can set up the remote to control the tuner or amplifier's volume instead of the TV volume while your remote control is in SAT mode. Follow the instructions in the left column to switch to controlling volume in AUX mode. To change back to controlling the TV volume in SAT mode, follow the instructions in the right column.

Control Amplifier Volume	Control TV Volume
<b>1</b> Press and hold the AUX mode button for three seconds, and then let go of it. The AUX mode button blinks.	<b>1</b> Press and hold the TV mode button for three seconds, and then let go of it. The TV mode button blinks.
<b>2</b> Press the POUND (#) button.	<b>2</b> Press the POUND (#) button.
<b>3</b> Press the plus (+) side of the VOLUME button.	<b>3</b> Press the plus (+) side of the VOLUME button.
<b>4</b> Press the 0 number button.	<b>4</b> Press the 0 number button.
<b>5</b> Press the POUND (#) button.  The AUX mode button flashes three times.	<b>5</b> Press the POUND (#) button.  The TV mode button flashes three times.
<b>MAKE SURE THE REMOTE CONTROLS THE AMPLIFIER'S VOLUME:</b>	
<b>6</b> Press the SAT mode button.	<b>6</b> Press the SAT mode button.
<b>7</b> Press the plus (+) and minus (-) sides of the VOLUME button.	<b>7</b> Press the plus (+) and minus (-) sides of the VOLUME button.
<b>8</b> The equipment's volume changes and the AUX mode button lights instead of the TV mode button.	<b>8</b> The TV's volume changes and the TV mode button lights instead of the AUX mode button.

## ***PROGRAMMING THE REMOTE TO CONTROL A SECOND RECEIVER IN AUX MODE***

If you have another DISH Network satellite receiver installed, you can use this remote in AUX mode to control it along with your new receiver. When you program the remote to control the other receiver, the remote sends out IR signals to the receiver. You can program the remote to control any other DISH Network satellite receiver, except for following:

- TV2 on Duo 322 (also known as DISH 322), DuoDVR™ 522, DuoDVR™ 625, DuoDVR™ ViP® 222, and DuoDVR™ ViP® 622 (also known as DISH Player-DVR models 522, 625, and ViP 222, & ViP 622 DVR)
- DishPlayer 7100/7200

- 1** Turn on the other receiver and display the System Info screen (see the receiver's *User Guide* for information on how to display this screen).

Write down the address shown: \_\_\_\_\_

- 2** Press and hold the AUX button until all the other mode buttons light up, and then let go of the button. The AUX button flashes.
- 3** Press the 3 button.
- 4** Use the NUMBER PAD to enter the address you wrote in step 1.
- 5** Press POUND (#). The AUX button blinks three times.
- 6** Press RECORD to make sure the address and the remote matches the address on the receiver.

## READING OUT THE REMOTE CONTROL CODES

These instructions explain how to check the codes you put in the remote control when you set it up. Be sure to write them in the spaces provided on the inside of the back cover.

Instructions	Additional Information
<p><b>1</b> Press and hold the mode button for the equipment you want the remote to control. When all the other mode buttons light up, let go of the mode button—that mode button should now be flashing.</p>	<p>For example, hold the TV mode button for a TV until all of the other mode buttons light. When you let go, the TV mode light flashes.</p>
<p><b>2</b> Press the POUND (#) button <i>twice</i>. The mode button flashes the number for each digit of the equipment code, with a pause between the groups of flashes. A quick flash is for zero.</p>	<p>For example, if the code is 570, the mode button flashes five times, pauses, flashes seven times, pauses, and quick flashes for zero.</p>
<p>For AUX mode, the first group of flashes tells you what type of device the AUX mode controls. A quick flash (zero) before the three-digit code is for a TV; one regular flash is for a VCR or DVD player; and two flashes is for a tuner or amplifier.</p>	<p>For example, if the TV code is 570, the AUX mode button flashes once quickly, pauses, flashes five times, pauses, flashes seven times, pauses, and quick flashes for zero.</p>
<p>For a satellite receiver programmed in AUX mode, the group of flashes tells you the address number.</p>	<p>For example, if the AUX mode button is set to control a satellite receiver with address 5, the AUX mode button flashes five times.</p>

## DISCRETE CODES FOR LEARNING REMOTES

Remote control discrete On and Off IR commands are used by installers when programming macro commands into universal remotes. Using an On-only or Off-only command is more effective than a toggle On/Off command when trying to ensure the satellite receiver is reliably in one state or the other. To use discrete power commands, complete the following:

- 1 Program the DISH Network remote to desired remote address (see *Changing the Remote and Receiver Address* below).
- 2 Hold the SAT mode button until all mode buttons light, then release.
- 3 Press POWER (not TV POWER).
- 4 Press VOLUME UP for discrete power on or VOLUME DOWN for discrete power off.
- 5 Press any other button when done to end this procedure.

## CHANGING THE REMOTE AND RECEIVER ADDRESS

One quick way to avoid remote conflicts is by changing the address on your remote and receiver. If you notice that your receiver is changing channels or opening menus but you're not using the remote control, a quick change of address should fix the problem.

- 1 Press SYSTEM INFO on the receiver's front panel. The System Info screen displays and shows the **Remote Address**.

Write down the address shown: \_\_\_\_\_

**Note:** If you aren't sure how to access the System Info screen or if there isn't a SYSTEM INFO button on the front panel of your receiver, check your receiver's *User Guide*.

- 2 Press and hold SAT on your remote control for about three seconds, until all of the mode buttons light up, and then let go of SAT.
- 3 Use the NUMBER PAD to enter any number between 1 and 16, but not the one you wrote in step 1.
- 4 Press the POUND (#) on your remote (the SAT button flashes three times). Write down the number you entered in the space provided on the inside back cover.

- 5** Press RECORD. Make sure the **Remote Address** you see on the System Info screen is the same as the one you entered in step 3. If it isn't, the remote cannot control the receiver. Press RECORD a second time.
- 6** Press SELECT to close the System Info screen.

## EQUIPMENT CODES

These tables contain the manufacturer codes for programming the remote to control your TV, a VCR, DVD player, or audio amplifier. Every attempt has been made to include all codes. If your equipment brand is not listed or if the codes do not work, the remote may not control your equipment. In some cases codes may operate some but not all buttons shown in this guide.

### TV CODES

**Programming in AUX mode:** In most cases use these codes to program in TV mode; however, if programming in AUX mode, press 0 before entering the TV code.

## TROUBLESHOOTING

What's Happening	What's Wrong	What You Can Do
While doing remote control procedure, the remote control stops working.	<ul style="list-style-type: none"> <li>If you don't press a button for 20 seconds in a programming sequence, the remote shuts off its programming function.</li> </ul>	Start over again.
When you press a button on the remote control, the equipment doesn't do what you expect.	<ul style="list-style-type: none"> <li>Maybe you didn't set the remote to the mode for the equipment you want to control.</li> <li>Maybe you're not pointing the remote control right at the TV (or other equipment).</li> <li>Maybe the remote control is missing batteries, maybe you put the batteries in the remote the wrong way, or maybe the batteries are weak or dead.</li> <li>Maybe you didn't set up the remote to control the equipment.</li> </ul>	<ul style="list-style-type: none"> <li>Press the correct mode button to set the remote to the mode for the equipment you want to control.</li> <li>The remote control uses IR signals to control all equipment except for the receiver (when using UHF). IR signals travel only 40 feet or less, and can't go through walls or other solid objects. You must point the remote control right at the equipment, with no objects to block the signal path.</li> <li>If the batteries are missing or dead, put fresh AAA-size batteries in. If the remote has fresh batteries, check whether you put them in the right way. If you didn't, take them out and put them in the right way.</li> <li>Make sure you set up the remote to control all the equipment you want to use. See <i>Program the Remote to Control Your TV</i> on page S-2 and <i>Programming for Other Equipment</i> on page 2.</li> </ul>

What's Happening	What's Wrong	What You Can Do
Your picture is snowy (or blue or black).	<ul style="list-style-type: none"> <li>You have accidentally changed the channel on your TV.</li> </ul>	<ul style="list-style-type: none"> <li>Make sure your TV (and VCR, if connected) is tuned to the correct channel. Also try using the Recover button as described on page S-3, <i>If You Lose Your Picture (How to Use the Recover Button)</i>.</li> </ul>
Your remote control isn't working	<ul style="list-style-type: none"> <li>The remote control is in the wrong mode.</li> <li>You might be using the wrong remote control (TV1 or TV2).</li> <li>Your batteries are worn out.</li> </ul>	<ul style="list-style-type: none"> <li>Make sure the remote control is in the correct mode. For example, if you want to use the satellite receiver, put the remote control in SAT mode (see <i>Remote Control Modes</i> on page 1).</li> <li>Make sure you are using the correct remote control (TV1 or TV2) for your locations (multi-room receivers only).</li> <li>Change the batteries as described on page S-1 in <i>Insert the Batteries</i>.</li> </ul>
When you press the remote control Mute or Volume button, nothing happens.	<ul style="list-style-type: none"> <li>Maybe you have not set up the remote control.</li> <li>Maybe you're trying to control TV volume but you set up the remote to control a tuner or amplifier in AUX mode.</li> </ul>	<ul style="list-style-type: none"> <li>See <i>Program the Remote to Control Your TV</i> on page S-2 at the beginning of this guide and <i>Programming for Other Equipment</i> on page 2.</li> <li>Set up the remote to control either TV volume or tuner/amplifier volume, whichever you want. See page 7.</li> </ul>
Your PIP (Picture-In-Picture) button isn't working.	<ul style="list-style-type: none"> <li>Your receiver doesn't use PIP.</li> </ul>	<ul style="list-style-type: none"> <li>Upgrade to a receiver with this feature.</li> </ul>

## LIMITED WARRANTY

This Limited Warranty is a legal document. Keep it in a safe place. Remember to keep your Sales Receipt for warranty service. We will consider any items you return without a copy of the Proof of Purchase to be out of warranty.

This warranty extends only to the original user ("you," "your") of the DISH Network remote control and is limited to the purchase price of the remote control. DISH Network and its affiliated companies ("we," "our," "us") warrant this remote control against defects in materials or workmanship as follows.

For one year from the original date of purchase, if we find the remote control is defective subject to the limits of this warranty, we will replace the remote at no charge for parts or labor. We warrant any such work done against defects in materials or workmanship for the remaining part of the original warranty period.

This warranty does not cover installation of the DISH Network System; consumer instruction; physical set up or adjustment of any consumer electronic equipment; remote control batteries; signal reception problems; loss of use of the equipment; unused programming charges due to equipment malfunction; cosmetic damage; damage due to lightning, electrical or telephone line surges, fire, flood, or other acts of Nature; accident; misuse; abuse; repair or alteration by other than our factory service; negligence; commercial or institutional use; improper or neglected maintenance; equipment sold AS IS or WITH ALL FAULTS; equipment removal or reinstallation; shipping damage if the equipment was not packed and shipped in the manner we prescribe; nor equipment purchased, serviced, or operated outside the contiguous United States of America.

REPLACEMENT AS PROVIDED UNDER THIS WARRANTY IS YOUR EXCLUSIVE REMEDY. WE SHALL NOT BE HELD LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES FOR BREACH OF ANY EXPRESSED OR IMPLIED WARRANTY ON THIS DEVICE, NOR FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGE RESULTING FROM THE USE OF, OR INABILITY TO USE, THIS DEVICE. UNDER NO CIRCUMSTANCES SHALL OUR LIABILITY, IF ANY, EXCEED THE PURCHASE PRICE PAID FOR THIS DEVICE. EXCEPT TO THE EXTENT PROHIBITED BY APPLICABLE LAW, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ON THIS DEVICE IS LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY. WE RESERVE THE RIGHT TO REFUSE TO HONOR THIS WARRANTY IF WE DETERMINE ANY OF THE ABOVE EXCEPTIONS TO HAVE CAUSED THIS DEVICE NOT TO HAVE PERFORMED PROPERLY. THIS WARRANTY SHALL BE VOID IF ANY FACTORY-APPLIED IDENTIFICATION MARK, INCLUDING BUT NOT LIMITED TO SERIAL OR CONDITIONAL ACCESS NUMBERS, HAS BEEN ALTERED OR REMOVED. THIS WARRANTY SHALL ALSO BE VOID IF THE DEVICE HAS BEEN OPENED BY AN UNAUTHORIZED PERSON (with the exception of opening the battery cover).

This warranty gives you specific legal rights which may vary from state to state. Some states do not allow the exclusion or limitations of incidental or consequential damages, or allow limitations on the duration of an implied warranty, so those limitations may not apply to you.

## **DISH NETWORK'S EXCHANGE PROGRAMS**

DISH Network offers two options if you need to replace your remote control: the Advanced Exchange Program and the Post Receipt Exchange Program.

### **Advance Exchange Program**

The Advanced Exchange Program allows you to have a replacement remote shipped immediately to you. Depending upon where you live, the remote should arrive within 3 to 5 business days. You will not have to return your defective remote to DISH Network using this program.

A shipping charge will be applied for shipping the replacement remote. This is a one-time fee based on DISH Network's competitive bulk shipping rates (additional charges may apply outside the continental U.S.). This fee will be charged to your billing account or valid credit card.

### **Post Receipt Exchange Program**

The Post Receipt Exchange Program does require that you send DISH Network the defective remote control at your cost to determine if the equipment is covered under warranty. To provide faster service, upon receipt of your equipment you will be shipped a replacement. Your original equipment will not be available for return.

If your equipment is not covered under warranty and can be repaired, your billing account or credit card will be charged the standard repair fee for the replacement. If damage to the defective equipment is found, which DISH Network in its sole discretion determines has voided the warranty, or makes the equipment unrepairable, your billing account or credit card will be charged the market price of the replacement.

## **ACCESSORY WARRANTY**

An accessory is any DISH Network branded equipment, displaying the DISH Network logo, excluding the receiver, Smart Card, cables and hookups, and non-mechanical components. A one-year warranty becomes effective upon the activation of the DISH system or date of purchase, if bought separately. A proof of purchase is required to verify the purchase date. If an accessory has an expired warranty, no exchange will be issued. You may purchase replacement accessories from DISH Network or your local retailer.

## **IF YOU NEED HELP**

1. Review this *User Guide*.
2. See *Troubleshooting* on page 20.
3. Call the Customer Service Center at 1-800-333-DISH (3474). Have the date of purchase and your customer account number ready.
  - a. If the representative finds you should return the remote control, you'll get a telephone number to call for a Return Authorization (RA) number. Before shipping any equipment to us, you must get a Return Authorization number.
  - b. You must package returned equipment the right way. Follow the instructions the representative gives you.
  - c. Write the RA number in large, clearly visible characters on the outside of the shipping box used to return the equipment. To avoid confusion and misunderstandings, we will return shipments without an RA number clearly visible on the outside of the box to you at your cost.

- d. We will:
- Check the remote control, including whether it is covered under the warranty.
  - Replace any remote we find is defective with a new or refurbished remote, if the defective remote is covered under the warranty. We will ship the replacement remote at our expense.
  - If a defective remote is not covered under the warranty, we will tell you. We may assess you a flat rate charge for a replacement remote, including shipping and insurance.

## REGULATORY FACTORS

This device complies with Part 15 of FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this device may void your authority to operate this equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Re-orient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.
